

Rubi DT-180 EVOLUTION

7 in. Tile Saw

Description

The DT-180 Evolution tile saw from RUBI accurately cuts all types of porcelain and ceramic tiles up to 24 inches, and 18 inch diagonal formats. It is also recommended for cutting granite, Marble, and other natural stones up to 2-1/4 inch thick. It is equipped with a 9 amp, 6,500 rpm motor, and a gliding table system made of aluminum for an optimum, robust, and durable working surface.
