

Schluter®-VINPRO

Modern Profiles Designed for Resilient Surface Coverings

PROFILE OF INNOVATION

Finding a complementary transition for resilient flooring is now simplified with the Schluter®-VINPRO profiles series. Providing finishing, transition, and edge protection for resilient floor and wall coverings, VINPRO profiles increase design flexibility with long-lasting results. The VINPRO series combines several durable finish options in complementing colors, and features a modern, sleek look with a minimalist reveal that is ideal for enhancing and protecting resilient coverings.

- Durable edge protection and finishing profiles for resilient coverings (e.g.: LVT, LVP) used on floors, walls, and stairs
- Unobtrusive design which easily complements any resilient covering
- Accommodates various covering thicknesses from 1/8" to 1/4" (2.5 mm to 6 mm)
- Available in 3 brushed anodized aluminum finishes: bronze, nickel, and chrome
- Tapered anchoring leg for smooth transition between substrate and profile

Schluter®-VINPRO-S

Provides edge protection where the resilient covering is bordered by carpet, floor coverings of similar heights, or as a finishing edge to wall skirting applications.

Schluter®-VINPRO-T

Designed to provide transitions between same-height resilient floor coverings.

Schluter®-VINPRO-STEP

Edging profile for resilient covering installations on stairs, with a square design and ribbed capping flange to provide slip protection.

Schluter®-VINPRO-RO

Edging profile with rounded reveal for resilient covering installations on stairs and outside corners of resilient surfaces.

Schluter®-VINPRO-U

Designed to provide a smooth transition between resilient floor coverings and floor coverings at lower elevations or finished concrete.
