

GROUT CLEANER AND DEEP STAIN REMOVER

GROUTRENEW

CEMENTITIOUS GROUT JOINTS IN TILE WALLS AND FLOORS

BIODEGRADABLE

WHAT IT'S FOR

- Thoroughly cleans cementitious grout joints in tile floor and wall coverings.
- Removes tough-to-clean grease, dirt, soap scum and food stains.
- Do not use on waxed porous surfaces, polished marble, travertine or limestone.

ADVANTAGES

- Easy-to-use spray bottle: just spray, wipe and rinse.
- Excellent for porcelain and ceramic tile.
- Does not damage tile surfaces.
- Non acidic: does not harm the grout or tile glaze.
- Biodegradable.

HOW TO USE IT

Spray **GROUTRENEW** directly on the grout. Let sit for a few seconds, then scrub with an abrasive pad or brush. Rinse with plenty of water.

Caution: Do not use on waxed porous surfaces, polished marble, travertine or limestone. Causes plastic and polished surfaces to become matte.

Storage temperature: Between 41°F and 86°F (5°C and 30°C). Must be applied at temperatures between 41°F and 86°F (5°C and 30°C).
