

Dimension: 1.89" w x 0.50" h

V-SR-18

WATERPROOF SURFACE REDUCER

Used to fill the gap between two floors of unequal height.

Used with floors ranging from 6-9mm height.

Surface: Wear resistant
Core Material: Rigid PVC

1

Install the flooring leaving a 1-1/8" gap between the two floor surfaces for the surface reducer installation.

2

Measure and trim to fit.

3

Center the track between the flooring leaving a 1/4" spacing between the track and floor planks. Screw track to subfloor using included screws (or glue down with construction adhesive).

4

Starting at one end, press the molding into the track inching along the length of the molding. It will NOT snap in all at once. You may also use a rubber mallet.
