WHAT STYLES & MATERIALS ARE AVAILABLE?

Complete Packages & Custom Orders

Floor & Decor offers complete, packaged vanities with the vanity top and hardware included. If you're solely looking for a vanity top, we have those too. For an ultra-customized vanity, visit the Design Services center in-store to view the custom-order catalog.

Special Features

Look for special features that are both stylish and functional. Seamless storage, quality finishes and detailed craftsmanship make a vanity a showpiece, with high impact in a smaller space. Floor & Decor offers traditional, modern and transitional vanity styles.

Materials & Faucet Details

Our vanities & vanity tops feature a variety of quality natural stone materials like marble and granite. All in-stock vanities and vanity tops are pre-drilled for 4-inch centerset or premium 8-inch widespread faucets for your convenience. Select special order vanity tops are also available with pre-drilled single faucet holes. Shop our faucet selection in-store and online.

Size

WHAT SIZE VANITY DO I NEED FOR MY BATHROOM?

Sizes to Fit the Specs

Whether you're shopping for a single or double sink vanity, we have stylish options for each. Vanity sizes range from 24 inches to 73 inches. Prefabricated vanity tops are also available in a range of sizes to fit the specs of your pre-existing vanity base. If you don't see the vanity top size you need, visit our Design Services center in-store to view our custom order catalog. Keep in mind a vanity top will overhang the vanity or cabinetry by 1 to 2 inches.

Extra Space & Finer Details

The special order program allows you the flexibility to complete your bathroom with additional countertop space. Consider ordering matching vanity tops for makeup counters and dressing areas. We'll fit your needs with custom options.

PRO TIP

Measure your bathroom with attention to detail. Consider the wall depth for access to vanity drawers and doors. Ensure the bathroom door can open fully. You don't want to create obstacles in a limited space once the vanity is installed. The location of your plumbing and any off-center pipes will impact installation as well, so make note of placement for a seamless fit.
